Nancy/Enesta,

R4 received this prior to publication. When we received the article, our Water Division followed up with the two systems that had results in exceedance of the levels in the health advisory for PFOA/PFOS – City of Greensboro and Pittsboro. Since that time R4 Water has been working with these two utilities. R4 Water did not reach out to Wilmington, because there was/is not a health advisory or regulatory standard for this constituent.

Larry
